(C)	Important to street/groups	good fair poor bad	1132-1136
D	Insignificant/detrimental	good fair poor bad	

Notable features:

Allen A.M.E. Church, 1863 (number 1126 W. Lexington); houses at 1132-1136. An important group visually and, because of the church, socially important as well. Remodelling to smaller windows on 1134 is regrettable. Numbers 1126 and 1132 are formstoned.

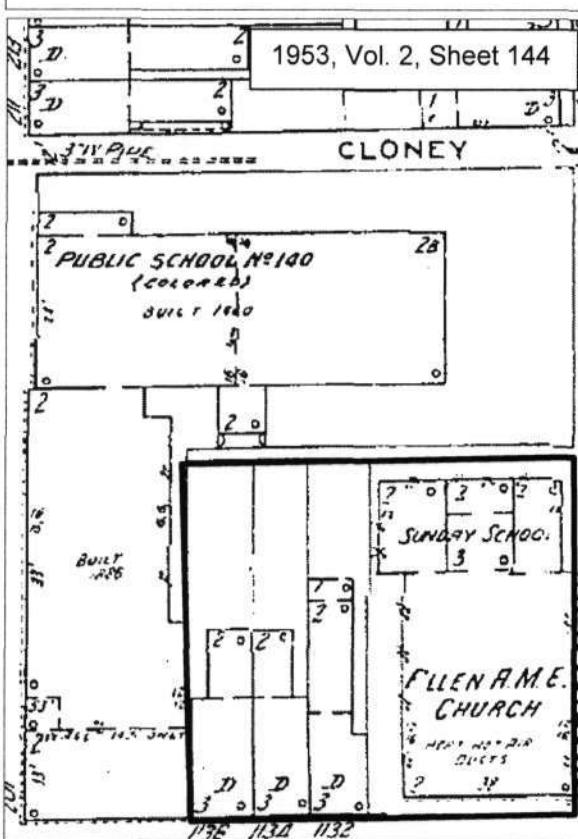

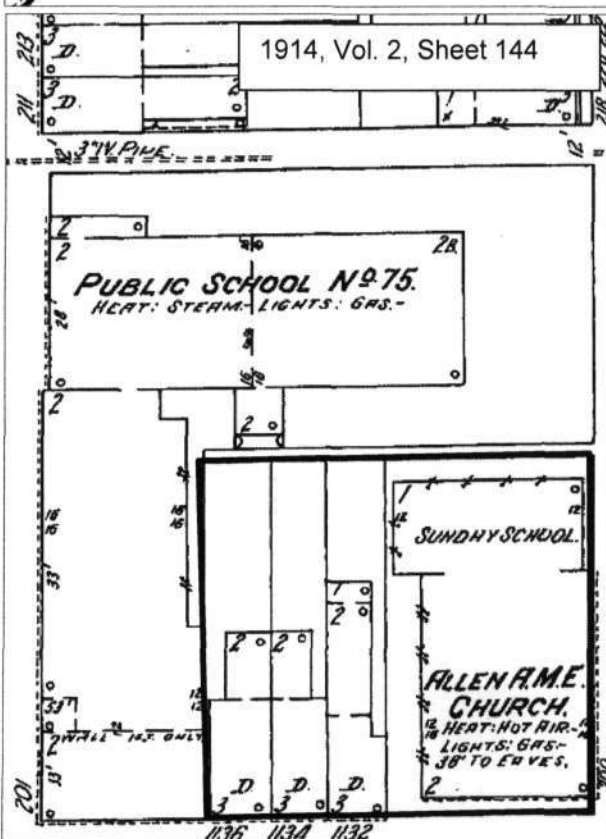

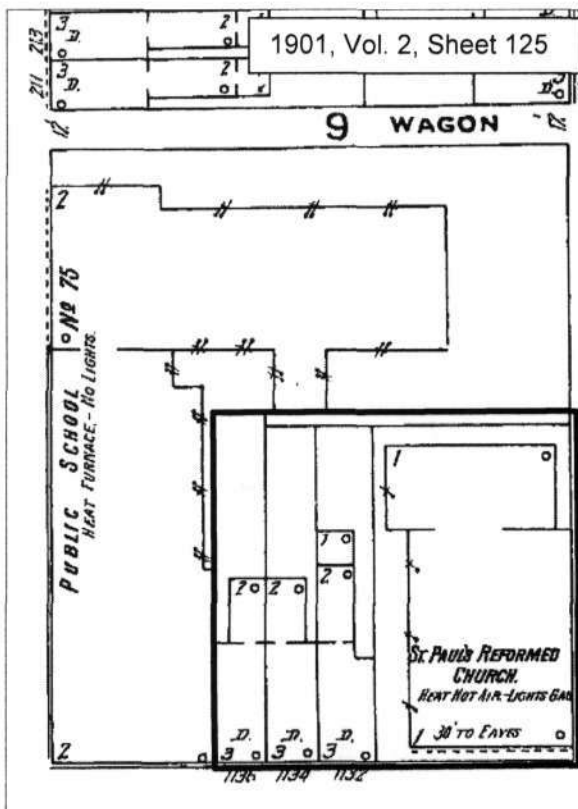

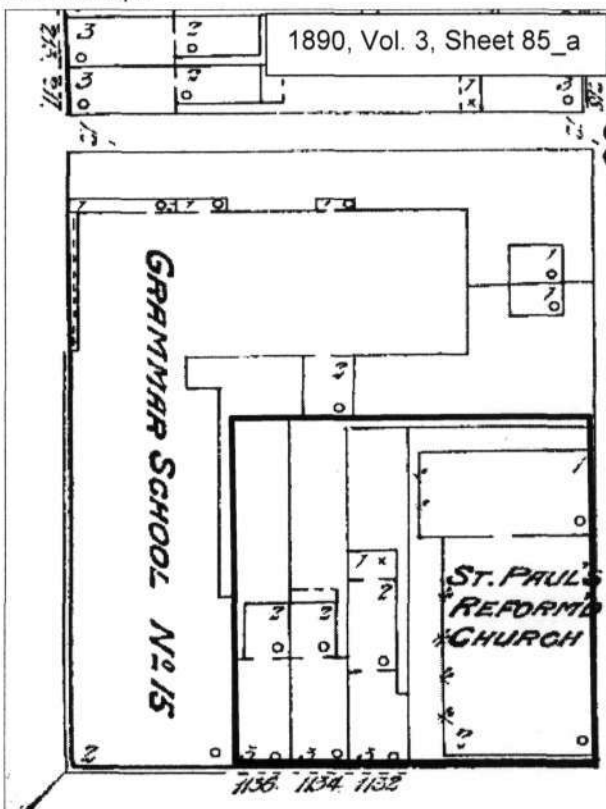

Environmental context:

Vacant school adjacent to west is detrimental; are-use should be found forthwith. Lexington is a busy, two-way street; needs street trees at houses.
